

Biomedical Alliance in Europe
Online General Assembly 2021
29-30 November

29 November 13.30-15.00

Policy Session

AI & healthcare: a match made in heaven?

13.30 Introduction

- Prof. Wilfried Ellmeier (BioMed Alliance President) welcomes participants and opens the session.

13.40 Panel discussion: can AI help bring European healthcare to the next level?

- Opening presentations followed by a panel discussion on the benefits and challenges of the use of AI in healthcare and how the EU policy environment can facilitate safe and effective use of AI to help clinicians provide better care to patients with:
 - Dr. Angela Spatharou (EMA Lead for Healthcare & Life Sciences, IBM, and EIT Health Supervisory Board member)
 - Dr. Gerard R. Dawson (CEO & CSO P1vital LTD and ECNP)
 - Salvatore Scalzo (Policy and Legal Officer AI Policy, DG CNECT, European Commission)
 - Prof. Frank Rademakers (Emeritus Professor Cardiology KU Leuven and CORE-MD)

14.25 Open discussion: are we ready for the future?

- Participants are welcome to take the floor and ask questions or to talk about their own experiences with the use of AI, and the opportunities and challenges that they see.

14.55 Conclusion

- Prof. Gunhild Waldemar (BioMed Alliance President-Elect) closes the session.
